

Office of the City Manager

CONSENT CALENDAR

July 25, 2023

To: Honorable Mayor and Members of the City Council

From: Dee Williams-Ridley, City Manager

Submitted by: Liam Garland, Director, Public Works

Subject: Audit Status Report: Unified Vision of Zero Waste Activities Will Help Align Service Levels with Billing and Ensure Customer Equity

INTRODUCTION

The Office of the City Auditor presented to the City Council a September 20, 2016 Report: Unified Vision of Zero Waste Activities Will Help Align Service Levels with Billing and Ensure Customer Equity. The City Auditor conducted the audit to assess whether the City of Berkeley is correctly billing customers based on their actual refuse collection levels; whether all Berkeley residents are signed up to receive refuse, recycling, and plant debris collection service as required by the Berkeley Municipal Code; and whether there are opportunities for improving both refuse and service delivery operations. This is the final status report on the efforts made to implement the Audit Report's recommendations, which are slated for no further follow-up action as recommended by the City Auditor for all audits more than five years old.

POLICY COMMITTEE RECOMMENDATION

On June 7, 2023, the Facilities, Infrastructure, Transportation, Environment & Sustainability Committee adopted the following action: M/S/C (Harrison/Robinson) to send the item to Council with a positive recommendation. Vote: Ayes – Robinson, Harrison; Noes – None; Abstain – None; Absent – Taplin.

CURRENT SITUATION AND ITS EFFECTS

The Audit Report included twelve (12) recommendations for the Office of the City Manager and Departments of Finance, Information Technology, and Public Works to review, implement, and report to Council regarding the status of recommendations. This is the fifth and final status report on the recommendations. Public Works has continued to make progress since the last status update. The Auditor's Office verified six recommendations as implemented and has dropped the remaining six recommendations. Please see Attachment 1 for a detailed table of audit report recommendations, corrective actions, and implementation progress.

**BACKGROUND**

Public Works' Zero Waste Division is responsible for the collection of residential material, including refuse, recycling, and composting; collection and processing of commercial material, including refuse, recycling, and composting; off-site hauling and composting of green/food waste for all customers; off-site hauling, sorting, and marketing of construction and demolition debris for all customers; and manages contracts related to the above work.

**ENVIRONMENTAL SUSTAINABILITY AND CLIMATE IMPACTS**

With the implementation of the Audit's recommendations, the Zero Waste Division will continue to help reduce the volume of waste landfilled and:

- Increase residential composting, recycling, and source reduction.
- Increase commercial composting, recycling, and source reduction.
- Increase recycling of construction and demolition (C&D) debris.
- Expand efforts to eliminate waste at its source.
- Increase waste diversion in public buildings.

All of these above-noted items promote the City's zero waste goal and are included in the approved Climate Action Plan Goals for Waste Reduction and Recycling.

**POSSIBLE FUTURE ACTION**

Public Works will continue to take timely and focused action(s) to address outstanding and partially implemented recommendations. The Zero Waste Division is working with the Information Technology and Finance Departments to select the software solution(s) needed to facilitate the implementation of the audit recommendations.

**FISCAL IMPACTS OF POSSIBLE FUTURE ACTION**

Public Works will update Council periodically on the progress, resources available, and any additional funding needed to address those recommendations that remain outstanding and partially implemented.

**CONTACT PERSON**

Greg Apa, Solid Waste and Recycling Manager, (510) 981-6359

1. Audit Findings and Recommendations Response Form

ATTACHMENT No. 1

Audit Title: Unified Vision of Zero Waste Activities Will Help Align Service Levels with Billing and Ensure Customer Equity					
Findings and Recommendations	Lead Dept.	Agree, Partially Agree, or Do Not Agree and Corrective Action Plan	Expected or Actual Implementation Date	Status of Outstanding Audit Recommendations and Implementation Progress Summary	
<b>Finding: Integrated thinking about zero waste operations will help ensure accurate billings and customer equity</b>					
1.1	Agree to a common and unified vision for zero waste operations. Discuss the long-term zero waste goals, objectives, and key initiatives and share that information with those responsible for day-to-day operations. Use meetings and informal communications to regularly encourage staff to embrace a unified view of zero waste operations.	City Manager's Office and Team Response: Public Works, Finance, and Information Technology	Agree	October 2016	<b>January 23, 2018 Update Implemented</b> Since late 2015, Zero Waste, 311, and IT (called collectively the Customer Solutions Group or Group) have met on a monthly basis to discuss operational issues that affect the three divisions. Given that this Group was already in place and per the Auditor's recommendation, the Group opted to include Finance as a participant instead of creating of a separate team and meeting. The meetings' monthly agenda identifies that the Group's primary focus is the development and continuous implementation of a common approach by all members to ensure a unified vision for zero waste operations for all community members. In addition, the meetings' agenda details those customers' issues as they occur, so that, the Group's members resolve them. These resolutions are applied by the Group to continue its efforts to strive towards the City's zero waste goals and the initiatives needed to attain these goals.
1.2	Form a zero waste team comprised of managers and line staff involved with zero waste operations (i.e., waste collection, billings, customer calls, systems support). Include a diverse pool of people who can share ideas, resources, and knowledge. Have the team members' work collectively to evaluate their respective functions; the interrelationships among their departmental activities; and the practices, policies, and procedures they use to perform their zero waste account management and operations functions. Ensure that the team understands that their	Team Response: Public Works, Finance, and Information Technology	Agree	October 2016	<b>September 20, 2016 Update Implemented</b> Zero Waste, 311, and IT meet on a monthly basis to discuss operational issues that affect the three divisions. This meeting schedule has been in existence for over one year. Since there was already a setup in place, we decided to include Finance as a participant versus create a separate team. We expanded the group and meeting scope to accommodate the Auditor's recommendations. At every meeting, it will be the first agenda item to make sure all participants are made aware of the team's concept. We will consider this completely implemented by October 2016, as at that time we will have met twice within the capacity required by this audit recommendation. This will be a regular meeting for the foreseeable future. The team members do understand that the Zero Waste operation is an enterprise with different parts and that the success of the operation depends on each of these distinctive units working together.

<b>Audit Title: Unified Vision of Zero Waste Activities Will Help Align Service Levels with Billing and Ensure Customer Equity</b>				
<b>Findings and Recommendations</b>	<b>Lead Dept.</b>	<b>Agree, Partially Agree, or Do Not Agree and Corrective Action Plan</b>	<b>Expected or Actual Implementation Date</b>	<b>Status of Outstanding Audit Recommendations and Implementation Progress Summary</b>
<p>goal is to develop and support a holistic approach to zero waste operations not only to ensure billing accuracy, but also to help accomplish zero waste by 2020 and ensure continued efficient and effective operations beyond that achievement.</p>				
<p>1.3 Require the zero waste team formed in response to recommendation 1.2 to develop written procedures that clearly support cross- departmental strategies and help staff perform their work, as well as understand how their work contributes to success. Include information that helps promote the unified view of zero waste operations, while also explaining the individual tasks that take place within the departments and how those connect. Examples include, but are not limited to, describing the process for routing customer cases from 311 calls, and detailing in layman's terms the monthly updates that take place to align the CX and RouteSmart systems. Also see recommendation 1.2.</p>	<p>Team Response: Public Works, Finance, and Information Technology</p>	<p>Agree</p>	<p>Originally Expected December 2017</p> <p>July 2019</p>	<p><b>September 20, 2016 Update</b> Staff from the Zero Waste Division, 311 Customer Service Center, Information Technology, and Finance Revenue Collection are reviewing and updating standard operating procedures for refuse and recycling services; reconfiguring and updating webpages; and creating technical assistance tools for zero waste customers. In July 2016, the group participated in an IT Strategic Plan Workshop to review the start of service process using the Rapid Workflow Process Model. The group will use this model to review other critical workflow processes.</p> <p><b>January 23, 2018 Update</b> <b>Partially Implemented</b> The Customer Solutions Group is constantly reviewing and updating standard operating procedures for refuse and recycling services; reconfiguring and updating webpages; and creating technical assistance tools for its zero waste customers. An example of this effort is Zero Waste and 311 identified issues related to responding to the community members complaints related to collection services. Zero Waste and 311 developed 311's scripted response and Solid Waste Supervisor response flow chart to ensure these issues were addressed within a 48 hour time frame. In July 2016, the Group participated in an IT Strategic Plan Workshop to review the start of service process using the Rapid Workflow Process Model. And as of this date, the ERP implementation schedule hasn't reached its scheduled timeline to integrate CX and RouteSmart systems. Nonetheless, the Group will use this Model to review other critical workflow processes to ensure that updates are developed in layman's terms in its monthly updates.</p> <p><b>September 25, 2018 Update</b> <b>Partially Implemented</b></p>

<b>Audit Title: Unified Vision of Zero Waste Activities Will Help Align Service Levels with Billing and Ensure Customer Equity</b>				
<b>Findings and Recommendations</b>	<b>Lead Dept.</b>	<b>Agree, Partially Agree, or Do Not Agree and Corrective Action Plan</b>	<b>Expected or Actual Implementation Date</b>	<b>Status of Outstanding Audit Recommendations and Implementation Progress Summary</b>
			June 2020	<p><b><u>March 12, 2019 Update</u></b>  <b>Partially Alternately Implemented</b>                      Given the roll-out issues associated with the November 1st implementation of the City's new enterprise resource planning system, "Erma", staff time has been rerouted to resolve. This project is on hold.</p>
