### Subcommittee Reports (Design Review Committee):

**2818 Blake Street:** ZAB recommended DRC review the metal cladding wrapping entire building at each façade. DRC recommended the applicant add more detail and interest to those facades the east and west facades of the building, and suggested the applicant add more windows. The applicant plans to return to DRC for a review of revised plans.

**2587 Telegraph Ave:** Preliminary design review of the project. DRC expressed concerns over the metal siding and inquired about whether the metal on the street frontage would get too hot. The DRC suggested redesigning the two bottom floors to break up the massing of the façade and bring more types of building materials.
